RECOGNIZE: Recognize when you may have encountered a UXO

Protect yourself, your family, your friends and your neighbors by immediately reporting Unexploded Ordnance

What is Unexploded Ordnance (UXO)?

UXO is any military ammunition or explosive, which has failed to explode as intended. It includes mortar bombs, mines, artillery shells, hand grenades, bombs, rockets, missiles and many other types of ammunition and explosives. Souvenir, discarded and dumped ammunition is also included as UXO.

On Camp Gruber, UXO contamination has been created mainly as a result of military training activities.

UXO may be easy or hard to identify

UXO's are dangerous regardless of size or age

UXO can be new and shiny or rusted and dirty
It may or may not look like a bullet or bomb
